

Archway Metal Detector Gate

AL-SD2 Thermo Walkthrough Metal Detector

Technical Parameters:

- External Dimension: 2220mm*590mm*820mm Tunnel Size: 2000mm*700mm
- Digital Signal Processing (DSP) technology Over 100 frequency
- The overall sensitivity can be adjusted from 0 to level 300 16 independent probes & 1,8,16,24 detecting zones Working Voltage: AC100-240V/47.5-60Hz
- Power Consumption: 15W Weight: about 65Kg
- Working Environment: -20°C~+55°C
