

AQUA 

About Us

Aqualink Bangladesh Ltd. works with clients to design and develop all sort of hardware and software solution. Our solutions are fully focused on our user that emphasizes on client first.

Web and App
Development

Embedded System

Industrial Automation

Artificial
Intelligence

Machine Learning

Internet of Things

Non-contact Temperature Measurement and Disinfection Chamber.

6 Seconds Testing Temperature and Disinfecting Obtain Safe Work and Home Living.

Non-contact Temperature Measurement and Disinfection Chamber.

Model: P – 01

Model: R – 01

360° Spray

360°

Human Detection

No Infection

Sanitizing
Carpet

Product Features

Rust Free

Model: P-01

Energy Saving
Efficient

Fever Waring

Temperature
Measurement

Hydrogen Peroxide
(Liquid)

Product Features

360° Spray

360 Degree Induction of Fogg Disinfectant, by using Ultrasonic Atomization.

Human Detection

Integrated Sensor Detect Human Automatically and Start Spray.

Temperature Measurement

Measure Body Temperature without any Physical Contact.

Rust Free

The Chamber Body is Metal Made and Fully Rust Free.

Product Features

Sanitizing Carpet

Built in Sanitizing Carpet for Disinfecting Shoes.

Energy Saving
Efficient

Ultrasonic Atomization System Saves more Energy and Liquid

Fever Waring

Buzzer Waring for Body Temperature of 100 Degree or Above.

Hydrogen Peroxide
(Liquid)

Induction of Hydrogen Peroxide Liquid Through Ultrasonic Atomizer.

No Infection

Using Food Grade Chemical that Never Causes any Chemical Infection

Specifications

Model: P-01

Dimension (L/H/W) ft.	$4 \times 6 \times 3$	Temperature accuracy	± 0.2 degree
Voltage	AC 220 V	Screen	LCD Screen
Power Consumption	640 W	Spray	360 degree (Fogging Spray)

Add-on

Model: P-01

1. Attendance System (RFID/Facial Recognition)
2. Auto Hand Sanitization
3. Battery Backup

Installation Areas

HOSPITALS

SCHOOLS

FACTORIES

SUPERMARKET

HOTELS
