

Under vehicle surveillance system

AL-VS33 under-car inspection detector system

Technical Parameters:

- Vertical resolution of the image: 2048pixel.
- Perspective check width: Not less than 4.0 meters
- Car speed: 1~65km/h;
- Effective angular field: No less than170°
- Auxiliary lighting: 100WLoad capacity: More than 30T;
- Waterproofing grade: IP68 Meet the all-weather work;
- Communication interface: RS232/RS422
- Storage temperature: -40° ~+75°
- Working Temperature: -10° ~+60°
- Working voltage: 110~240V AC. 50~60HZ
